

A LITTLE MORE THAN A YEAR AFTER SUPERSTORM SANDY

NYC RAPID REPAIR/SKANSKA— HELPING OUR NEIGHBORS IN BROOKLYN!

Following Superstorm Sandy, Larry Gillman was given the responsibility of leading Skanska's team of approximately 500 supervisory and craft personnel in helping Brooklyn residents recover from the storm's flooding as part of the NYC Rapid Repair Program. The free, rapid repair program helped residential property owners affected by Superstorm Sandy make emergency repairs. These limited emergency repairs allowed residents to stay in their homes while they made more permanent repairs and finishes.

Larry Gillman is an Operational Vice President for Skanska's Heavy Civil Construction Group based in New York City.
